EMPLOYMENT	Millsaps College	Jackson, MS
	<i>Assistant Professor</i>	Aug 2025 - Present
	Kenyon College	Gambier, OH
	<i>Visiting Assistant Professor</i>	Aug 2023 - Jul 2025
	University of South Florida	Tampa, FL
	<i>Visiting Assistant Professor</i>	Aug 2022 - Jul 2023
EDUCATION	Virginia Tech	Blacksburg, VA
	<i>Instructor of Mathematics</i>	Aug 2021 - Jul 2022
	Department of Mathematical Sciences, University of Memphis	Memphis, TN
	<i>Ph.D. in Mathematics</i>	2016 - 2021
	• Advisor: Dr. Fernanda Botelho • Thesis title: Hermitian projections and Geometric properties of Banach spaces. • Research area: Operator theory, Functional Analysis, Banach Space Geometry.	
RESEARCH ARTICLES	Published	
	1. Botelho, F., Dey, P., Easley, Z. Projections in the convex hull of isometries on Absolutely Continuous Function Spaces. <i>Journal of Mathematical Analysis and Applications</i> , 2023. [Journal]	
	2. Botelho, F., Dey, P., Ilišević, D. Hermitian projections on some Banach spaces and related topics. <i>Linear Algebra and Its Applications</i> , 2020. [Journal]	
	Preprints	
	1. Amrutam, T., Dey, P., Monika. On the Convergence of Numerical Index via Operator Openings and Ultraproducts. Preprint, 2026. [arXiv]	
	2. Dey, P., Easley, Z., Monika. Projections in the Algebra Generated by an n -potent Operator. Preprint, 2025. [arXiv]	
TEACHING	Millsaps College Department of Mathematics	2025–Present
	• MATH 4630 : Real Analysis, S26, S27 • MATH 4510 : Mathematical Statistics, F26 • MATH 2310 : Introduction to Advanced Mathematics, F25 • MATH 1220 : Analytical Geometry & Calculus I, F25 ($\times 2$) • MATH 1150 : Elementary Statistics, S26 ($\times 2$), F26 ($\times 2$), S27 ($\times 2$)	
	Kenyon College Department of Mathematics & Statistics	2023–2025
	• MATH 341 : Real Analysis I, F24 • MATH 342 : Real Analysis II, S25 • MATH 224 : Linear Algebra, F24, F23, S24 • STAT 106 : Elements of Statistics, S25 ($\times 2$), S24 ($\times 2$) • MATH 112 : Calculus II, F23	
	University of South Florida & Virginia Tech	2021–2023
	• Courses taught: Linear Algebra, Engineering Calculus II, Calculus II (USF, 2022–2023); Calculus of a Single Variable (Virginia Tech, 2021–2022).	

STUDENT MENTORING	• Senior Capstone Advisor on the project “<i>Investigating the Derivation of Real and Complex Fourier Coefficients</i>”, Department of Mathematics & Statistics, Kenyon College. 2023 • Graduate Student Mentor for the NSF grant “<i>Promoting Success in Undergraduate Mathematics Program</i>”(PI. John Haddock), University of Memphis. 2019 – 2021
AWARDS AND HONORS	• Recipient of AMS-ICM 2026 Travel Grant (funded by NSF), for early career mathematicians to attend the ICM 2026, Philadelphia, PA, July 2026. Spring 2026 • Recipient of AMS-MCA 2025 Travel Grant (funded by NSF), for attending the Mathematical Congress of the Americas, University of Miami, FL, July 2025. Grant declined due to family reasons. Summer 2025 • Recipient of JMM travel grant for primarily undergraduate institution (PUI) faculty for attending and delivering a talk at JMM, 2024. Spring 2024 • Recipient of DMS 2021 Research Award for an excellent progress toward achieving the doctoral degree. Spring 2021 • Recipient of Outstanding 2021 Graduate Assistant Award. Spring 2021 • Invited to participate in the Summer Grad School Mathematics of Big Data: Sketching and (Multi-) Linear Algebra at MSRI, Berkeley. Summer 2021 • Recipient of Cecil C. Rousseau award for an excellent progress toward achieving the doctoral degree and an excellent teaching record. Fall 2020 • Recipient of Travel Enrichment fund, University of Memphis for presenting in IWOTA 2019. Summer 2019
INVITED TALKS	• “Projections and Isometries: Interconnections in Infinite-Dimensional Spaces” at Ohio Speaker Circuit, Oberlin College, Oberlin, OH. April 2025 • “Exploring connections between Isometries and Projections on Infinite Dimensional Spaces” at Math Mondays, Kenyon College, Gambier, OH. November 2023 • “Recent results in Hermitian Projections on Banach spaces” at One Day in Operator Theory, University of Memphis, Memphis, TN. February 2020 • “Hermitian Projections on Operator spaces” at IWOTA 2019, University of Lisbon, Portugal. July 2019
CONTRIBUTED TALKS	• “Projections in the algebra generated by an n-potent operator” at South Eastern Analysis Meeting (SEAM), University of Richmond, Richmond, VA. March 2026 • “A class of projection and its characterization on Banach Spaces” at New Faces in Operator Theory, JMM 2025, Seattle, WA. January 2025 • “Projections in the combination of powers of operators of finite order” at AMS Special Session on New Faces in Operator Theory and Function Theory, JMM 2024, San Francisco, CA. January 2024 • “Projections in the convex hull of Surjective isometries” at Ohio River Analysis Meeting XII (ORAM), University of Cincinnati, Cincinnati, OH. March 2023 • “Hermitian projections on some operator spaces” at 38th South Eastern Analysis Meeting (SEAM), University of Florida, Gainesville, FL (held online). March 2022
PROFESSIONAL SERVICE	• Reviewer, Mathematical Reviews, American Mathematical Society. 2026–Present • Served as a referee for the Journal of Contemporary Mathematics. Summer 2023 • Served as a panel member for Undergraduate Honor System, Virginia Tech. Fall 2021 • Worked as a facilitator for the conference One day in Operator Theory. February 2020
